

CUMULATIVE INDEX 1994

Volume 38

January	THE CLINICAL APPROACH TO RADIOLOGIC DIAGNOSIS, pages 1-191
April	BASIC PROCEDURES IN ORAL SURGERY, pages 193-359
July	PRACTICAL CONSIDERATIONS IN SPECIAL PATIENT CARE, pages 361-584
October	DRUGS PRESCRIBED TO DENTAL PATIENTS, pages 585-805

Note: Page numbers of article titles are in **boldface** type

- Absorption, drug interactions affecting, 771
 - of para-aminophenols, 641
 - of salicylates, 637
 - pharmacokinetics of, 590-592
 - in elderly, 757-758
- Abuse, ethical responsibility of dentist in, 569-572
- Acetaminophen, 640-643
 - adverse effects of, 642-643
 - drug interactions with, 532
 - for acute orofacial pain, 661
 - opioids with, in oral surgery, 247
 - pharmacodynamics of, 641
 - pharmacokinetics of, 641-642
 - pharmacotherapeutics of, 642
 - use in children, 736-737
- Acetylsalicylic acid. See also *Aspirin*; *Salicylates*.
 - and acetaminophen, 633-644
- Acquired immunodeficiency syndrome, dentist's response to, 419-420
- Activated partial thromboplastin time, in bleeding disorders, 467
- Activity limitations, of elderly, self-reported, 515-516
- Acyclovir, drug interactions with, 532
 - for dental lesion associated with HIV infection, 410-411
- Adenocystic carcinoma, radiolucencies with, 98-99
- Adenomatoid odontogenic tumor, radiographic appearance of, 56-57
- Adrenal suppression, medications causing, treatment modifications for, 535
- Adults, anxiolytic therapy in, intravenous sedation for, 612-613
 - oral sedation for, 610-611
- Advance directives, for health care, 561-562
- Adverse drug effects, 769-783
 - in pediatric patient, 734
- Aging, normative changes in, 509
 - pharmacodynamic/pharmacokinetic changes with, clinical drug use modifications for, 762-765
- Agonists, definition of, 586
- AIDS, dentist's response to, 419-420
- Alcohol, and head and neck cancer, 427-428
- Alfentanil, anxiolytic therapy with, 606
 - sedation with, 614
- Allergic intolerance, to acetaminophen, 642 to aspirin, 639
- Allergic reactions, drug-induced, 776-778
- Allergies, history of, 363
 - in medically compromised patient, and treatment risk, 385
- Alprazolam, for chronic orofacial pain, 682-683
 - for sedation, 614
- Alveolar bone loss, and surgical extraction, 232
 - in diabetes mellitus, 454
- Alveolar crest, in moderate periodontitis, 23
- Alveolar dehiscence, in moderate periodontal disease, 25

- Alveolar ridge resorption, in elderly, 508
- Alzheimer's disease, dental care in, informed consent for, 555-557
- Ameloblastic fibro-odontoma, radiographic appearance of, 55-56
- Ameloblastic fibroma, radiographic appearance of, 54-55
- Ameloblastoma, 66-69
clinical features of, 66-67
histopathologic findings in, 68
radiographic features of, 67-68
treatment of, 68-69
- American Heart Association
recommendations, for antibacterial prophylaxis, 709-710
- Americans with Disabilities Act, and dental care accessibility, 569-570
- Amides, for local anesthesia, 629
- Aminoglycosides, drug interactions with, 532
- Amisriptyline, for chronic tension headache
differential diagnosis, 675
for postviral neuralgia differential diagnosis, 677
- Amoxicillin, drug interactions with, 532
for antibacterial prophylaxis, 710
for bacterial endocarditis prevention, 389-390
for odontogenic infections, 698
- Ampicillin, drug interactions with, 700
for antibacterial prophylaxis, 710
for bacterial endocarditis prevention, 390
for odontogenic infections, 698
in oral surgery, 248-249
- Analgesics, drug interactions with, 532
efficacy of, pain mechanisms underlying, 646-647
for chronic pain management, 678
in endodontic surgery, 319
para-aminophenols as, 641
pharmacodynamic/pharmacokinetic changes with age, clinical drug use modifications for, 763-764
salicylates as, 634, 636
use in children, 736-738
- Anaphylaxis, drug-induced, 777
- Anatomic contraindications, to endodontic surgery, 306
- Anemia, management of, in head and neck cancer, 438
sickle cell, antibiotic considerations in, 395
- Anesthesia, in disabilities, 492
- Anesthetics, drug interactions with, 532
in oral surgery, local long-acting, 245-246
topical, 244-245
local, 619-632. See also *Local anesthetics*.
- Aneurysmal bone cyst, 75-77
clinical features of, 75-76
histopathologic findings in, 77
radiographic features of, 76-77
treatment of, 77
- Angioedema, drug-induced, 774
with local anesthetics, 625
- Angular cheilitis, associated with HIV infection, diagnosis and treatment of, 409
- Ankylosis, of temporomandibular joint, radiographic appearance of, 171
- Ansaed, in oral surgery, 239-240
- Antagonists, definition of, 586
- Antibacterial prophylaxis, 707-718
for asplenic patient, 712-713
for cardiac patient, 707-709
for diabetic patient, 714-715
for neutropenic patient, 715-716
with kidney disease, 713-714
with prosthetic joints, 711-712
- Antibiotics, drug interactions with, 532
for pediatric patient, 747-749
in bacteremia, 383-384
in endodontic surgery, 319
in medically compromised patient, 381-402
treatment risk with, 386
in odontogenic infections, effectiveness of, antibiotic factors in, 694-695
drug interactions and, 698
patient-specific factors in, 695-698
frequently used, 698-703
selection rationale for, 703-704
- oral, cost of, 697
dental use of, 703
pharmacodynamic/pharmacokinetic changes with age, clinical drug use modifications for, 765
prophylactic, with prosthetic joints, 391
systemic, in oral surgery, 248-249
- Anticalculus agents, supragingival plaque reduction with, 721
- Anticholinergics, drug interactions with, 533
- Anticoagulant therapy, dental treatment in, 476-477
- Antidepressants, for chronic pain management, 678, 680-681
- Antifungals, drug interactions with, 532
in medically compromised patient, treatment risk with, 387
- Antihistamines, drug interactions with, 533
pharmacodynamic/pharmacokinetic changes with age, clinical drug use modifications for, 765
- Anti-inflammatory effect, salicylates and, 636
- Anti-inflammatory medications, in oral surgery, 238-241

- Antimicrobials, in odontogenic infections,
frequently used, 698-703
in periodontal practice, 719-731
subgingival plaque reduction with, 726-727
supragingival plaque reduction with, 725-726
systemic therapy with, indications for, 727-729
- Antiplaque agents, supragingival plaque reduction with, 721
- Antipyresis, para-aminophenols and, 641
salicylates and, 636
- Antirejection drugs, in medically compromised patient, treatment risk with, 386
- Anti-thrombotic effect, salicylates and, 636
- Antivirals, drug interactions with, 532
in medically compromised patient, treatment risk with, 387
- Antral mucosal thickening, radiographic appearance of, 158
- Antroliths, radiographic appearance of, 164
- Anxiolytic therapy, 603-617
barbiturates, 607-608
benzodiazepines, 604-605
chloral hydrate, 609
drug interactions in, 533
for chronic pain management, 678
for pediatric patient, 738-746
chloral hydrate, 740-741
diazepam, 743-744
hydroxyzine, 741-742
meperidine, 745-746
midazolam, 744-745
promethazine, 742-743
intravenous sedation, 611-613, 616
ketamine, 608
opioids, 605-607
oral sedation, 610-611
propofol, 608-609
reversal agents for, 613
techniques of, 609
- Apex location, in endodontic surgery, 316
- Apthous ulcers, HIV-associated, diagnosis and treatment of, 416-418
- Apical curettage, in endodontic surgery, 303
- Apicoectomy, anterior, 301-324
endodontic surgery vs, 301
in endodontic surgery, 303-305, 316-317
- Arch length discrepancy, and third molar removal, 256
- Arthus reaction, drug-induced, 777, 779
- Aspiration biopsy, of oral mucosa, 297-298
- Aspirin. See also *Salicylates*.
adverse reactions to, differential diagnosis of, 639
and acetaminophen, properties of, 641
dosage of, 638
drug interactions with, 532
for acute orofacial pain, 661
forms of, pharmacotherapeutics of, 637-638
opioids with, in oral surgery, 247
systemic toxicity with, 640
therapy with, dental treatment in, 473
use in children, 737
- Asplenic patient, antibacterial prophylaxis for, 712-713
- Asplenism, antibiotic considerations in, 394-395
- Asthma, dental management with, 373
- Atopy, drug-induced, 778, 781
- Atrophic glossitis, in elderly, 506
- Autism, related oral conditions in, 486
- Autoimmune lesions, HIV-associated, diagnosis and treatment of, 416-418
- Autonomy, of elderly, and dental care, 516-517
paternalism vs, in special care patient, 553-554
- Azithromycin, drug interactions with, 700
for odontogenic infections, 699
- Bacteremias, and dental procedures, 381-384
duration of, 383
factors influencing, 381-382
qualitative nature of, 383
role of antimicrobials in, 383
- Bacterial endocarditis, prevention of, 388-390
- Bacterial flora, in pediatric patient, pharmacologic principles of, 734
- Bacterial infection, HIV-associated, diagnosis and treatment of, 413
in head and neck cancer, management of, 437-438
- Barbiturates, anxiolytic therapy with, 607-608
drug interactions with, 533
- Basal cell carcinoma syndrome, radiographic appearance of, 66
- Benzodiazepines, anxiolytic therapy with, 604-605
drug interactions with, 533
for chronic orofacial pain, 682-683
- Beta-adrenergic blockers, disease interactions with, 772-773
- Bicuspidizing, for surgical removal of mandibular first molar, 223
- Biliary excretion, drug interactions affecting, 772
pharmacokinetics of, 594

- Biopsy, in head and neck cancer diagnosis, 431-432
 of oral mucosa, 279-300. See also *Oral mucosa*.
- Biotransformation, of para-aminophenols, 641-642
 of salicylates, 637
 pharmacokinetics of, 592-593
- Bleeding, in endodontic surgery, 319
 medications causing, treatment modifications for, 534
- Bleeding disorders, common, and dental treatment, 469-471
 dental evaluation in, 466-468
 treatment of, 465-482
- Bleeding gums, medication-induced, 530
- Bleeding time, in bleeding disorders, 467
- Blindness, related oral conditions in, 487
- Blood count, knowledge of, in treating HIV-infected patient, 405
- Body composition, of pediatric patient, pharmacologic principles of, 733
- Bone, central hemangioma of, 77-80
 clinical features of, 77-78
 histopathologic findings in, 79
 radiographic features of, 78-79
 treatment of, 79-80
- Paget's disease of, radiopacities with, 147-152
 removal of, for impacted third molars, mandibular, 263-265
 maxillary, 273
 vascular lesions of, clinical features of, 77-78
 histopathologic findings in, 79
 radiographic features of, 78-79
 treatment of, 79-80
- Bone cyst, aneurysmal, 75-77
 clinical features of, 75-76
 histopathologic findings in, 77
 radiographic features of, 76-77
 treatment of, 77
- Bone density, and surgical extraction, 233-234
- Bone loss, alveolar, and surgical extraction, 232
 horizontal, in severe periodontitis, 26
 vertical, in moderate periodontal disease, 24
- Bone marrow, hematopoietic defect of, radiographic appearance of, 38-40
- Brain injury, related oral conditions in, 488
- Bruxism, in disabled persons, management of, 489
- Buccal mucosa fibroma, excisional biopsy of, 296
- Bulla, definition of, 281
- Bupivacaine, in oral surgery, 245-246
- Burkitt's lymphoma, radiolucencies with, 102-105
- Burning mouth, in diabetes mellitus, 449-450
- Calcium channel blockers, disease interactions with, 773
- Cancer, antibiotic considerations in, 393
 dental management with, 375
 head and neck, nonsurgical management of, 425-445
 radiopacities with, 131-133
- Candidal stomatitis, in elderly, 508
- Candidiasis, HIV-associated, diagnosis and treatment of, 407-409
 in diabetes mellitus, 450
 in head and neck cancer, management of, 435-437
 medication-induced, 530
- Capability, of elderly, and dental care, 514-516
- Capsaicin cream, for chronic orofacial pain, 683
- Carbamazepine, for trigeminal neuralgia differential diagnosis, 676
- Carcinogens, industrial, and head and neck cancer, 429
- Carcinoma, oral, TNM classification for, 433
 radiolucencies with, adenocystic, 98-99
 mucoepidermoid, 96-98. See also *Mucoepidermoid carcinoma*.
 squamous cell, 93-96. See also *Squamous cell carcinoma*.
- Cardiac collapse, with local anesthetic, 624
- Cardiac dysfunction, drug-induced, 776
- Cardiac pacemaker, antibacterial prophylaxis with, 709
- Cardiac patient, antibacterial prophylaxis for, 707-709
- Cardiovascular disease, antibiotic considerations in, 387-389
 dental management with, 369-373
- Cardiovascular grafts, antibacterial prophylaxis with, 709
- Caries, 14-20
 facial/lingual, 16, 20
 in diabetes mellitus, 451
 in disabled persons, prevention of, 484-488
 interproximal, 14-16
 occlusal, 16
 radiologic interpretation of, 13-31
 recurrent, and restorative materials, 19-20
 root, 16-19

- Carotidynia, differential diagnosis of, medications useful in, 675
- Cellulitis, in pediatric patient, antibiotics for, 749
- Cemental dysplasia, periapical, clinical features of, 127, 137-138
differential diagnosis of, 128-129
histologic findings in, 128
management of, 129
radiographic appearance of, 127-128, 138-139
radiopacities with, 126-129, 137-139
treatment of, 139
- Central giant cell granuloma, radiographic appearance of, 69-71
- Cephalosporins, dental use of, 702
drug interactions with, 532, 700
for odontogenic infections, 698
- Cerebral palsy, dental management with, 376
related oral conditions in, 487
- Cerebrospinal fluid shunt, antibacterial prophylaxis with, 709
- Cerebrovascular accident, dental management with, 377
in elderly, impact on dental care, 510-512
- Cervical burnout, root caries with, 17-18
- Chalazion forceps and retractor, 292
- Cheilitis, angular, HIV-associated, diagnosis and treatment of, 409
- Chemical restraints, for special care patients, 564
- Chemotherapy, dental management with, 375
in head and neck cancer, 434
in medically compromised patient, treatment risk with, 386
- Cherubism, 70-73
clinical features of, 71-72
histopathologic findings in, 73
radiographic features of, 72-73
treatment of, 73
- Children. See also under *Pediatric*.
analgesic use in, 736-738
anxiolytic therapy in, 610-612
dentistry in, pharmacologic considerations in, 733-735
- Chloral derivatives, pharmacodynamic/pharmacokinetic changes with age, clinical drug use modifications for, 765
- Chloral hydrate, anxiolytic therapy with, 609
in pediatric patient, 740-741
sedation with, 615
- Chlorazepate, anxiolytic therapy with, 605
- Chlorhexidine, for dry socket prevention, 250
in cancer populations, selected studies of, 436
supragingival plaque reduction with, 724-725
- Chondrosarcoma, radiolucencies with, 100-102
radiopacities with, 132
- Chronic obstructive pulmonary disease, dental management with, 373
- Clarithromycin, drug interactions with, 700
for odontogenic infections, 699
- Clindamycin, drug interactions with, 532, 700
for antibacterial prophylaxis, 710
for bacterial endocarditis prevention, 389-390
for odontogenic infections, 699
in oral surgery, 248-249
- Clinician, role in consent process, 559
- Closure, for impacted third molars, mandibular, 267-270
maxillary, 275
- Clotrimazole, for HIV-associated fungal lesions, 408, 409
- Cluster headaches, differential diagnosis of, medications useful in, 673-674
- Coagulation, cascading pathways for, 480
following tissue injury, mechanisms of, 479
screening tests of, interpretation of, 468
- Coagulopathies, inherited, dental treatment in, 473-476
- Codeine, for chronic orofacial pain, 679
in oral surgery, 246-248
- Cognitive skills, in medical history, 365-366
- Combination analgesics, use in children, 738
- Communication board, for stroke patient, 512
- Competence, for informed consent, 558, 560
- Compliance, in elderly, 761
in pediatric patient, pharmacologic principles of, 734-735
in pharmacotherapeutics, 599-600
- Computed tomography, indications for, 8-9
- Condensing osteitis, 27
radiopacities with, 118-120
- Condylar aplasia/hypoplasia, of temporomandibular joint, radiographic features of, 180
- Condylar hypertrophy/hyperplasia, of temporomandibular joint, radiographic features of, 180-181
- Congenital disorders, of temporomandibular joint, radiographic features of, 180-181

- Congenital heart disease, dental management with, 371-372
- Congestive heart failure, dental management with, 372
- Consultation reports, 365
- Cortical trephination, in endodontic surgery, 302
- Corticosteroids, drug interactions with, 533
- Cough reflex, impaired, in stroke patient, 512
- Coumarin therapy, dental treatment in, 476
- Crestal tissue, mobile, removal of, 210
- Crown, condition of, in surgical extraction, 226-227
- Crown/root ratio, as contraindication to endodontic surgery, 306-307
- Crust, definition of, 281
- Curettage and biopsy, in endodontic surgery, 316
- Cysts, of maxillary sinus, radiographic appearance of, 162-164
- Cytomegalovirus, HIV-associated, diagnosis and treatment of, 411, 413
- Cytotoxic hypersensitivity, drug-induced, 777-778

- Deafness, related oral conditions in, 488
- Decision-making capacity, for informed consent, 558, 560
 - of elderly, and dental care, 517
- Degenerative joint disease, of temporomandibular joint, radiographic appearance of, 171-174, 176
- Delayed hypersensitivity reaction, drug-induced, 777-778
- Dementia, dental management with, 378
 - related oral conditions in, 487
- Dental care, access to, by disabled persons, 494-496
 - by special care patients, 566-569
- Dental caries, in diabetes mellitus, 451
 - in disabled persons, prevention of, 484-488
- Dental disease, and bacteremia, 382
 - in disabled persons, prevention of, 484-488
- Dental infection, in pediatric patient, antibiotics for, 749
- Dental patient, diabetic, 447-463
- Dental practitioners, for nursing home patients, 543-544
- Dental restorations, in elderly, 503
- Dental Risk Assessment and Prognosis Evaluation Scale*, 367-369
- Dentate patients, radiographic recommendations for, 5-6
- Dentifrices, properties of, 722
 - supragingival plaque reduction with, 720-723
- Dentigerous cyst, radiographic appearance of, 52-54
- Dentist-physician communication, concerning elderly, 513-514
 - concerning human immunodeficiency virus, 405-406
- Dentoalveolar trauma, in pediatric patient, antibiotics for, 749
- Denture(s), for disabled patient, 494
 - ill-fitting, palatal papillary hyperplasia with, 208
 - immediate, 211-215
 - classic, 212-215
 - stage I, 213-214
 - stage II, 214-215
 - temporary, 215
- Dependence, of elderly, and dental care, 514-515
- Devitalized tooth, endodontic surgery for, 312
- Dexamethasone, in intentional replantation, 331
- Diabetes mellitus, 447-463
 - antibacterial prophylaxis in, 714-715
 - antibiotic considerations in, 393-394
 - classification and pathophysiology of, 448
 - complications of, 449
 - dental management in, 454-459
 - patient evaluation, 454-456
 - patient management, 456-458
 - emergencies in, during dental care, 458-459
 - epidemiology of, 447-448
 - in elderly, impact on dental care, 510
 - medical treatment of, 453-454
 - oral manifestations of, 449-453
 - screening tests for, 455
 - signs and symptoms of, 448-449
- Diabetic shock, during dental care, 458-459
- Diazepam, anxiolytic therapy with, 604-605
 - in pediatric patient, 743-744
 - for sedation, 614
 - in oral surgery, 241
- Diet, and head and neck cancer, 428-429
- Diflunisal, for pain, acute, 652
 - maximum recommended dosages, 663
- in oral surgery, 239
- Digital imaging, indications for, 9-10
- Digital subtraction imaging, of alveolar bone loss, 30
- Diphenhydramine, for sedation, 615
- Disabilities, 483-498
 - and access to care, 494-496
 - behavior management in, 491-493
 - communication in, 490

- coordination of care in, 493
- informed consent in, 490-491
- medically compromising conditions vs, 362
- modified radiographic techniques in, 491-492
- oral conditions related to, 486-488
- treatment considerations in, 489-490, 493-494
- Distoangular impaction, definition of, 259
- Distribution, drug interactions affecting, 771
 - of para-aminophenols, 641
 - of salicylates, 637
 - pharmacokinetics of, 592
 - in elderly, 758
- Do not resuscitate/intubate orders, and dental team, 562
- Dolobid, in oral surgery, 239
- Dose-response relationship, of drugs, 587-588
 - individual variations in, 589
 - pharmacodynamics of, 587-589
- Down syndrome, related oral conditions in, 486
- Drilac, for dry socket prevention, 250
- Drug(s), disposition of, in pediatric patient,
 - pharmacologic principles of, 733-734
 - pharmacologic interactions of, 770
 - physiologic interactions of, 770-771
 - receptors for, alterations in, 771
 - pharmacodynamics of, 585-586
 - route of administration of, and absorption, 591
 - in pediatric patient, 735
 - solubility of, 590
- Drug-disease interactions, 772-773
- Drug effects, adverse, 769-783
 - increased, with age, 757
- Drug-induced illness, 773-778
 - accurate diagnosis of, 779-780
 - in oral cavity, 773-775
 - need for treatment of, critical assessment of, 780
 - systemic, 775-776
 - therapy for, continuous reassessment of, 782
- Drug interactions, 532-533, 770-772
 - affecting absorption, 771
 - affecting biliary excretion, 772
 - affecting distribution, 771
 - affecting metabolism, 772
 - affecting renal excretion, 772
 - and antibiotic effectiveness, in odontogenic infections, 698
 - and pharmacotherapeutics, 598-599
 - pharmacodynamic, 770-771
 - pharmacokinetic, 771-772
 - software for, 527
 - with local anesthetics, 626
- Drug reactions, in polymedication patient, 526
- Drug therapy, oral manifestations of, 530
- Dry sockets, medication for, 249-251
 - prevention, 250
 - treatment, 250-251
- Dysgeusia, management of, in head and neck cancer, 438
- Economic barriers, to dental care, by
 - special care patients, 566-567
- Edentulous areas, in elderly, 506
- Edentulous patients, radiographic recommendations for, 6
- Elderly, autonomy of, and dental care, 516-517
 - capability of, and dental care, 514-516
 - characteristic oral findings in, 501
 - characteristics of, effect on dental care provision, 539-540
 - dental assessment of, 502
 - dental care of, 499-523
 - impact of diseases on, 509-511
 - oral factors in, 502-507
 - occlusal relationships, 507
 - oral hygiene, 504-505
